

Defoamer

Anti-foam Agent For Carpet & Floor Care

DESCRIPTION:

Defoamer is an economic additive for auto scrubbers and carpet extractors. **Defoamer** keeps the dirty water and cleaning solution mixture from foaming.

FEATURES:

Silicone type defoamer • water based

DIRECTIONS:

SHAKE WELL BEFORE USING

Pour or spray **Defoamer** directly into the recovery tanks of automatic scrubbers, shampoo machines, etc. Use 6 ml to 12 ml of **Defoamer** per 4 litres of recoverable capacity.

If foam is excessive, use up to 25 ml per 4 L. For use with hot water extractors, mix 1 part of **Defoamer** to 80 parts water and lightly spray the carpet before cleaning.

For further information, please review the **Safety Data Sheet (SDS)** and **Product Label**.

STORAGE & HANDLING:

Keep from freezing. Store upright in original closed container at room temperature away from children. Do not mix with any other chemicals.
