

Extra Tuff AFC

Liquid Alkaline Foam Cleaner

DESCRIPTION:

Extra Tuff AFC is a high foaming alkaline cleaner for use in meat, fish, poultry, beverage and dairy plants and is formulated to remove grease, oil, starch, protein and blood.

An excellent all-around cleaner, **Extra Tuff AFC** provides exceptional foaming and detergency and has the additional formulation flexibility in that chlorine bleach can be added to further aid in protein and starch removal. **Extra Tuff AFC's** thick foam adheres to vertical surfaces, increasing the contact time on food processing equipment and walls.

FEATURES:

Extra Tuff AFC is a Canadian Food Inspection Agency (CFIA) approved product for use in registered food processing plants. Surfaces in direct food contact must be rinsed with potable water.

DIRECTIONS:

Foam Units:

Use 2.5 to 5 oz **Extra Tuff AFC** per US gallon of warm to hot water (20 to 40 ml/litre) (1:50 to 1:25). No additional foaming agent is required.

Pressure Spray:

Use 1.3 to 2.5 oz per US gallon of water (10 to 20 ml/litre) (1:100 to 1:50).

Manual Cleaning:

Follow all safety precautions. Use 1 to 3 oz per gallon of warm to hot water (8 to 25 ml/litre) (1:128 to 1:40). For heavily soiled surfaces use 6.5 oz per gallon of water (50 ml/litre) (1:20).

Liquid Chlorine Bleach addition:

Add 1 to 5 percent by volume of liquid chlorine bleach to your diluted **Extra Tuff AFC** cleaning solution (1:20 to 1:100).

For further information, please review the **Safety Data Sheet (SDS)** and **Product Label**.

STORAGE & HANDLING:

Keep from freezing. Store upright in original closed container at room temperature away from children. Do not mix with any other chemicals.
