

Mean Max

Liquid Laundry Detergent

DESCRIPTION:

Mean Max is a phosphate-free liquid detergent for all laundry fabrics: cotton, wool, synthetics, and blends with effective cleaning action at warm and hot water temperatures. Optical brighteners assure whiter whites and brighter colours. Special wetting agents break the chemical bond between oily stains and polyester fibres for even cleaner results. A unique blend of ingredients controls foam to prevent loss of wash action. **Mean Max** does not contain any enzymes so it's gentle enough for hand washing wool garments.

FEATURES:

Keep out of reach of children. Avoid breathing spray mists. Wear protective clothing. Keep from freezing. Laundered items for use in registered establishments should be subject to a thorough final potable water rinse.

DIRECTIONS:

Agitator Machines:

Light Soil: 30-60 ml per load

Heavy soil: 60-120 ml per load

Tumbler Machines:

Light soil: 60-120 ml per 45 Kg of linen

Heavy soil: 120-240 ml per 45 Kg of linen

Pre-spotting: To remove difficult stains use full strength.

Pre-soaking: Use 90 ml per 45 L of water. Let fabric soak overnight.

For further information, please review the **Safety Data Sheet (SDS)** and **Product Label**.

STORAGE & HANDLING:

Keep from freezing. Store upright in original closed container at room temperature away from children. Do not mix with any other chemicals.
