

# Neutraceutical

## Neutral Floor Cleaner

### DESCRIPTION:

**NeutraCare** efficiently removes surface soils without chemically disturbing the finish. **NeutraCare** electrolytically detaches soil from the substrate and treats it so that it repels soil and stays clean for longer. Because **NeutraCare** doesn't rely on pH, solvents, ammonia or caustic builders, it's safe to use on all washable surfaces and is completely effective in hard or soft, hot or cold water.

### FEATURES:

non-toxic • biodegradable ingredients • multi-purpose • economical to use • neutral pH •

### DIRECTIONS:

#### Preparation:

Dust mop entire floor surface.

#### Application:

For floors, use NeutraCare at 1 - 2 oz per US gallon of water (8 - 16 ml/litre) (1:128 – 1:64). Can be used in autoscrubbers and/or damp mopped with a clean mop.

For use as a general purpose cleaner, use 2 - 3 oz per US gallon of water (16 - 24 ml/litre) (1:64 – 1:40).

**For further information, please review the Safety Data Sheet (SDS) and Product Label.**

### STORAGE & HANDLING:

Keep from freezing. Store upright in original closed container at room temperature away from children. Do not mix with any other chemicals.
