

Optima NCL

High Alkaline Liquid Cleaner

DESCRIPTION:

OPTIMA NCL is a concentrated high alkaline cleaner. Formulated with superior chelating and wetting agents, **OPTIMA NCL** is a non-foaming food surface cleaner that removes protein and starch soils.

OPTIMA NCL was formulated for CIP and COP applications in dairies, meat and poultry, bottling and other food industries.

FEATURES:

- Specially formulated cleaner with superior chelating and wetting capabilities.
- Low foam for CIP and COP applications.
- Formulation provides excellent water conditioning properties.
- May be used in conjunction with other Agromax products to produce chlorinated cleaners for use on protein and starch soils or a foam cleaner.
- Contains no phosphates.

DIRECTIONS:

OPTIMA NCL is 3-5 times the concentration of an average alkaline cleaner.

Use at 1-50 mL per litre of water (0.13-6.4 oz/gal.) (1:1000 – 1:20), depending on the cleaning application.

For further information, please review the **Safety Data Sheet (SDS)** and **Product Label**.

STORAGE & HANDLING:

Keep out of reach of children. Causes burns to eyes and skin. Contact or inhalation can cause immediate burns.

Protect eyes and wear protective clothing when handling. Avoid mixing with acids or prolong contact with aluminum, zinc and their alloys.
