

SM Cleaner

Soft Metal Low Foam Cleaner

DESCRIPTION:

SM Cleaner is a non-chlorinated, noncaustic powder cleaner that has been buffered to prevent corrosion to soft metals. **SM Cleaner** is recommended for cleaning aluminum and stainless steel equipment where a strong cleaner is needed but caustic cannot be tolerated. **SM Cleaner** is used in a variety of food processing establishments such as bakeries, restaurants and dairies and gives excellent results for the heavy duty, soft metal cleaning required for baking pans, aluminum trays and processing equipment.

FEATURES:

Non-caustic, non-chlorinated powder cleaner Effective cleaner at a low dose

DIRECTIONS:

Minimum water temperature 140°F
